## PREMI, RICONOSCIMENTI E BORSE DI STUDIO

anno	Descrizione premio
2013-2019	Regional Scholarship - University of Padova

## ATTIVITÀ DI FORMAZIONE O DI RICERCA

My main research interests lie in the intersection of time series econometrics, applied macroeconomics and environmental economics. I would like to spend the next years of my research working on projects which focus on the macroeconomic impacts of climate changes (e.g., fiscal impacts, impacts on individual macroeconomic expectations, time-varying impacts on bond yield) mainly employing Bayesian macroeconomics methodologies and starting to study DSGE models.

## PUBBLICAZIONI
