Ciascun commissario dichiara che non sussistono situazioni di incompatibilità, ai sensi degli artt. 51 e 52 c.p.c. e dell'art. 5, comma 2, del D.lgs. 1172/1948, con i candidati. Dichiara inoltre di non trovarsi in alcuna situazione di conflitto di interessi, anche potenziale, con i candidati ai sensi della Legge 190/2012. Ciascun Commissario sottoscrive apposita dichiarazione che si allega al presente verbale.

Constatato che, come previsto dal bando, sono trascorsi almeno 5 giorni dalla pubblicizzazione dei criteri, la Commissione può legittimamente proseguire i lavori con l'esame dei titoli e delle pubblicazioni scientifiche presentate dai candidati.

Successivamente verifica che le pubblicazioni scientifiche inviate agli uffici corrispondono all'elenco delle stesse allegate alle domande dei candidati.

La Commissione, ai fini della presente selezione, prende in considerazione esclusivamente pubblicazioni o testi accettati per la pubblicazione secondo le norme vigenti nonché saggi inseriti in opere collettanee e articoli editi su riviste in formato cartaceo o digitale con esclusione di note interne o rapporti dipartimentali. La tesi di dottorato (o equipollenti) è presa in considerazione anche in assenza delle condizioni sopra menzionate.

Vengono quindi prese in esame le pubblicazioni redatte in collaborazione con i commissari della presente procedura di valutazione o con altri coautori non appartenenti alla Commissione, al fine di valutare l'apporto di ciascun candidato.

In ordine alla possibilità di individuare l'apporto dei singoli coautori alle pubblicazioni presentate dai candidati che risultano svolte in collaborazione con i membri della Commissione, si precisa quanto segue:

Il Prof. Corrado Sinigaglia ha un lavoro in comune con la candidata Chiara Brozzo, e in particolare il lavoro n. 9:

Sinigaglia, C., & Brozzo, C. (2011). The Enactive Constitution of Space. In Boi, L., Bartocci, C., & C. Sinigaglia (eds.), *New Trends in Geometry, and its Role in the Natural and Life Sciences*. Imperial College Press.

La Commissione sulla scorta delle dichiarazioni del Prof Corrado Sinigaglia delibera di ammettere all'unanimità la pubblicazione in questione alla successiva fase del giudizio di merito.

Successivamente, dopo attenta analisi comparata dei lavori svolti in collaborazione tra ciascuno dei candidati ed altri coautori, la Commissione rileva che i contributi scientifici dei candidati sono enucleabili e distinguibili (tenuto conto, ad esempio, anche dell'attività scientifica globale sviluppata da ciascuno dei candidati, la Commissione ritiene che vi siano evidenti elementi di giudizio per individuare l'apporto dei singoli coautori) e unanimemente delibera di ammettere alla successiva valutazione di merito i seguenti lavori:
