

UNIVERSITÀ DEGLI STUDI DI MILANO

TO MAGNIFICO RETTORE OF UNIVERSITA' DEGLI STUDI DI MILANO

ID CODE 6214

I the undersigned asks to participate in the public selection, for qualifications and examinations, for the awarding of a type B fellowship at Dipartimento di Scienze e Politiche Ambientali

Scientist- in - charge: Prof. Maurizio Maugeri

CURRICULUM VITAE

PERSONAL INFORMATION

| | |
|---------|---------|
| Surname | Lorenzo |
| Name | Matteo |

PRESENT OCCUPATION

| | |
|-------------|--|
| Appointment | Structure |
| PhD student | Dipartimento di Fisica, Università degli Studi di Torino |

EDUCATION AND TRAINING

| Degree | Course of studies | University | year of achievement of the degree |
|---------------|-------------------|----------------------------------|-----------------------------------|
| Master Degree | Physics (LM-17) | Università degli Studi di Torino | 2019 |

FOREIGN LANGUAGES

| | |
|-----------|--------------------|
| Languages | level of knowledge |
| English | B2 |

AWARDS, ACKNOWLEDGEMENTS, SCHOLARSHIPS

| | |
|------|---|
| Year | Description of award |
| 2020 | PhD scholarship within "Dipartimento di Eccellenza" |

TRAINING OR RESEARCH ACTIVITY

| |
|--|
| 2020 - Ongoing: PhD research. I deepened my skills in the field of fluid dynamics. Initially, I engaged in an experimental campaign focusing on studying a metamaterial-based device designed to attenuate surface gravity waves. This involved constructing the experimental setup within the wave flume and developing wave analysis techniques, which included coding the decomposition of the wave signal in the |
|--|

UNIVERSITÀ DEGLI STUDI DI MILANO

incident and reflected fields. Additionally, on larger scale, I delved into the wave phenomenon from a climate perspective, evaluating the historical performances of regional climate modeling in response to different wind forcings (with high- and low-resolution datasets) off the coast of South-East Australia. I also dedicated a period to visiting the wave climate group at the University of Melbourne (AU), to advance our collaboration.

4 - 28 July 2023: Wave Turbulence Summer School, MIT, Boston (USA).

20-30 June 2023: 2nd Advanced Summer School in Mathematical Fluid Dynamics, Institut d'etudes scientifiques de Cargese, Corsica (FR).

27 June-1 July 2022: Observation and modeling for the hydraulics risk reduction, Senigallia (IT).

13-21 August 2021: 1st Advanced Summer School in Mathematical Fluid Dynamics, Institut d'etudes scientifiques de Cargese, Corsica (FR).

June - September 2020: Indipendent collaboration, BlueFarm s.r.l. - Spin off SME Ca' Foscari Università di Venezia - Centro VEGA ed. Pegaso, Via delle Industrie 13 - 30175 Venezia Marghera (Italy). Data analysis of water temperature, dissolved oxygen concentration, salinity in the Venice lagoon and development of site-specific, short-term forecasts of water quality parameters relevant for aquaculture. Project leader: Prof. Roberto Pastres.

June 2015 - August 2016: Bachelor's degree traineeship, ARPA Piemonte - Dipartimento di Sistemi Previsionali, Via Pio VII 9 - 10135 Torino (Italy). Statistical analysis of regional models' outputs, specifically using indices for Severe Convective Events forecast (K Index, CAPE, Sweat Index) and draft of Bachelor's Degree thesis. Company supervisor: Dr. Paolo Bertolotto.

PROJECT ACTIVITY

| Year | Project |
|------------------------------|---|
| September 2020 - Ongoing | BOHEME, Bio-Inspired Hierarchical MetaMaterials, European-funded under the FET-Open scheme. Development of an experimental study on mechanical metamaterials. |
| December 2020 - October 2021 | PoC Instrument, Proof of Concept, funded by Compagnia di San Paolo Progetto d'Ateneo/Fondazione San Paolo. Contributed with experiments on the interactions between surface gravity waves and a mechanical metaterial device, aiming to attenuate incident waves |
| June - September 2020 | Early warning system for mass mortality and contamination risk in aquaculture farms, funded by Coldiretti. Contributed with expertise in programming, optimization, forecast verification and uncertainty analysis. |
| January 2019 - November 2019 | ECOPOTENTIAL, improving future ecosystem benefits through Earth observations, EU-funded H2020 project. Contributed with experiments on the interactions between surface gravity waves and a mechanical metaterial device, aiming to attenuate incident waves |

CONGRESSES AND SEMINARS

| Date | Title | Place |
|------|-------|-------|
| | | |

| | | |
|-------------------|--|---|
| 2-3 November 2023 | BOHEME-METAVEH joint workshop | Imperial College, London (UK) |
| 1-6 October 2023 | 3rd International Workshop on Waves, Storm Surges, and Coastal Hazards | University of Notre Dame, South Bend (USA). |
| 23-28 April 2023 | EGU23 General Assembly | Vienna, Austria (attended online) |
| 14 February 2023 | Climate Change Communication workshop | Università degli Studi di Milano-Bicocca, Milano (IT) |
| 4-9 December 2022 | 37th International Conference on Coastal Engineering | Sydney (AU) |
| 10-13 April 2022 | International Workshop on Water Waves and Floating Bodies | Giardini Naxos (IT) |

OTHER INFORMATION

Computer skills: macro (Environmental data processing, water waves generation and analysis, climate data analysis), programming languages (Fortran, Python, R, C++), Software (CDO, LaTeX, Office)

Thesis supervision: FM. Ventrella - Master thesis, Università degli Studi di Torino. Thesis title: Design and implementation of a gravity wave attenuating device

Referees:

1. Prof. Miguel Onorato, Full Professor, Department of Physics, Università degli studi di Torino, miguel.onorato@unito.it
2. Dr. Paolo Pezzutto, Researcher, CNR-IRBIM Ancona, paolo.pezzutto@cnr.it
3. Dr. Alberto Meucci, Researcher, University of Melbourne, alberto.meucci@unimelb.edu.au

Declarations given in the present curriculum must be considered released according to art. 46 and 47 of DPR n. 445/2000.

The present curriculum does not contain confidential and legal information according to art. 4, paragraph 1, points d) and e) of D.Lgs. 30.06.2003 n. 196.

Please note that CV WILL BE PUBLISHED on the University website and It is recommended that personal and sensitive data should not be included. This template is realized to satisfy the need of publication without personal and sensitive data.

Please DO NOT SIGN this form.

Place and date: Cuneo, 19 Dicembre 2023
