

UNIVERSITÀ DEGLI STUDI DI MILANO

TO MAGNIFICO RETTORE OF UNIVERSITA' DEGLI STUDI DI MILANO

ID CODE 6191

I the undersigned asks to participate in the public selection, for qualifications and examinations, for the awarding of a type B fellowship at **Dipartimento di Bioscienze**

Scientist- in - charge: **Prof. Luciano Alberto Maria**

[MUHAMMAD IBRAHIM]

CURRICULUM VITAE

PERSONAL INFORMATION

Surname	Ibrahim
Name	Muhammad

PRESENT OCCUPATION

Appointment	Structure
Assistant Professor (TTS) From January 2018 till now)	Institute of Biotechnology and Genetic Engineering (IBGE), The University of Agriculture Peshawar

EDUCATION AND TRAINING

Degree	Course of studies	University	year of achievement of the degree
Degree	DVM (Veterinary Medicine and surgery)	Gomal University	2004
Specialization	Mphil (Biotechnology)	The University of Agriculture Peshawar	2009
PhD	Developmental Biology	Leiden University	2017
Master			
Degree of medical specialization			
Degree of European specialization			
Other			

UNIVERSITÀ DEGLI STUDI DI MILANO

REGISTRATION IN PROFESSIONAL ASSOCIATIONS

Date registration	of Association	City
21-08-2009	Pakistan Veterinary Medical Council	Islamabad

FOREIGN LANGUAGES

Languages	level of knowledge
English	Advance (W, R and S)
Urdu	Advance (W, R and S)

AWARDS, ACKNOWLEDGEMENTS, SCHOLARSHIPS

Year	Description of award
2012-2017	Faculty Development Scholarship for PhD studies at Leiden University Netherlands, Funded by Higher Education Comission of Pakistan

TRAINING OR RESEARCH ACTIVITY

During my PhD studies, I worked on culturing primary embryonic cells from zebrafish in differentiation conditions to generate in vitro vascular networks. To achieve the goals, I applied various materials and methods and gained expertise in different techniques including isolation of primary embryonic cells, cell culture (pluripotent embryonic cells, embryoid body culture, embryonic liver cells, embryonic fibroblasts, endothelial cells), media preparation (basic media, differentiation media) culturing on different extracellular matrices (fibronectin, fibrinogen, collagen, matrigel, gelatin), 3D cell culture with cells embedded inside the matrix, and microfluidic cell culture (with continuous and peristaltic perfusion). The data for my PhD research were obtained through confocal microscopy, live cell imaging, image processing, fluorescent activated cell sorting (FACs), cell counting, RNA extraction, and transcriptome analysis.

Being an Assistant Professor, I developed few courses for M Phi and PhD in Animal Biotechnology. Being a teacher, I experienced teaching theory and doing practical demonstrations for Microbial Genetics, Biometrical Genetics, Animal Biotechnology, Pharmaceutical Biotechnology and Medical Microbiology to BSc (Hons) students. Besides, I have supervised research and thesis of 12 B.Sc. (H) and 11 M.Phil students in the field of genomics, bioinformatics, and laboratory animal studies. During this period my duties were lab supervision, training students in lab work, data analysis, data interpretation and results writing. The key results have been published in scientific peer reviewed journals.

PROJECT ACTIVITY

Year	Project
2012-17	Generade Applied Genomics for Life grant [Ref. 2016-004] Amount: 77383 € . Transcriptomic profiling of developing blood vessels: A quantum leap towards organ regeneration.
2018-19	Higher Education Commission of Pakistan [Ref. SRGP-1937] . Amount: 485000 PKR Establishment of Experimental Animal Laboratory using Zebrafish as Model Species.

PATENTS

Patent

CONGRESSES AND SEMINARS

Date	Title	Place
21-25 June 2021	Workshop on Phenotypic characterization of livestock resources of Pakistan	Arid Agriculture University Rawalpindi, Pakistan
Dec 19-20, 2019	Workshop on Biorisk Management (Refresher course)	The University of Agriculture Peshawar, Pakistan
May 2, 2019	Workshop on CRISPR/Cas Genome Editing Technology	Islamia College Peshawar, Pakistan
4-6 March 2019	Plenary lecture on Zebrafish: a versatile model for <i>in vivo</i> and <i>in vitro</i> studies in 39 th Pakistan congress of zoology	Islamia College Peshawar, Pakistan
19 January 2017	Poster presentation on Culturing blood vessels: A step towards organ regeneration, in Generade Applied Genomics Symposium	Leiden, Netherlands
7-8 July 2016	Oral presentation on Towards the growth of blood vessel networks in microfluidic culture, in Select Biosciences organ-on-a-chip world congress and 3D culture.	Boston, USA
