CURRICULUM VITAE

INFORMAZIONI PERSONALI

Cognome	Adnan
Nome	Muhammad

OCCUPAZIONE ATTUALE

Incarico	Struttura
Joint PhD student: University of Genova/ University of Carlos III, Madrid	1. Conduct research on LiDAR point clouds to detect and track obstacles around the ego vehicle. 2. Perform classification of static and dynamic tracks using advanced data analysis techniques. 3. Localize the ego vehicle using static tracks and Dynamic Bayesian Networks. 4. Complete technical courses at the University of Genova and non-technical courses at the University Carlos III of Madrid. 5. Publish research findings in reputable conferences and journals. 6. Attend and participate in workshops relevant to the research field. 7. Present research through poster presentations at academic and industry events. 8. Participate in weekly departmental meetings to discuss research progress and collaborative projects.
Computer science lecturer: 04/04/2016 - 29/12/2021	1. Devised and delivered comprehensive lectures to undergraduate students, ensuring clarity and engagement. 2. Facilitated dynamic and inclusive classroom discussions to enhance learning experiences. 3. Conducted independent research and attended national and international symposiums to stay abreast of the latest advancements in computer science. 4. Planned, developed, and revised curriculum materials to meet academic standards and student needs. 5. Collaborated with the Head of Department to monitor and support student progress. 6. Designed and administered examinations to evaluate student knowledge and understanding. 7. Supervised practical lab sessions in Machine Learning, Deep Learning, and Web Development. 8. Organised and arranged seminars to promote knowledge sharing and professional development. 9. Actively participated as an organiser in international conferences to foster academic collaboration and exchange.

Web developer: 01/01/2013 - 28/02/2016	1. Built, designed, and maintained the company's official website, ensuring a user-friendly interface and seamless functionality. 2.
--	--

	Collaborated with team members and supervisors to align the website's direction with company goals and branding strategies. 3. Conducted thorough research on various software programs to identify the best tools and technologies for web development projects. 4. Maintained detailed software documentation to ensure consistency and facilitate future updates or troubleshooting. 5. Participated in regular meetings with company officials to discuss project progress, gather requirements, and implement feedback. 6. Provided training sessions for staff members to enhance their understanding of website functionalities and basic maintenance tasks. 7. Implemented security measures to protect the website from vulnerabilities and ensure data privacy. 8. Optimised website performance by analyzing metrics and making necessary adjustments to improve loading times and overall user experience. 9. Integrated third-party services and APIs to enhance website capabilities and provide additional functionalities. 10. Developed responsive web designs to ensure compatibility across various devices, including desktops, tablets, and smartphones. 11. Troubleshooted and resolved technical issues promptly to minimize downtime and maintain website reliability. 12. Stayed updated with the latest web development trends and technologies to continuously improve the website's features and performance.
