

LERU STudent REseArch Mobility Programme (STREAM)
Project proposal

Host University:
Università degli studi di Milano

Field: Toxicology

Specified field, subject: *In vitro* Toxicology

Research project title:
Emerging contaminants and toxicological effects with 3D in vitro model

Possible starting month(s):

Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug
						x					

Possible duration in months:

1	2	3	4	5	6
		x			

Suitable for students in:
2nd cycle (Master students)

Prerequisites: basic experience in lab

Restrictions: none

Description:
The project is focused on the evaluation of oral exposure to emerging contaminants using in vitro 3D intestinal epithelial barrier, as predictive tool for toxicological effects and bioavailability in humans. **Only in presence.**

Faculty or Department: Department of Environmental science and policy

Contact person: International relations office, University of Milan
