DRAGON CASTLE

FATE REWARDS THE WISE

Freely inspired by Mahjong solitaire games, Dragon Castle is a tile placing game with an elegant design. Players take tiles from the central castle to build their own, then place Shrines on top of their boards to gather score points. Further elements, such as the majestic Dragons and Spirits, build up additional strategy for more difficult challenges, by altering game rules or adding powerful actions for the players.

Platform:

Windows, Mac, Android, iOS

Genre:

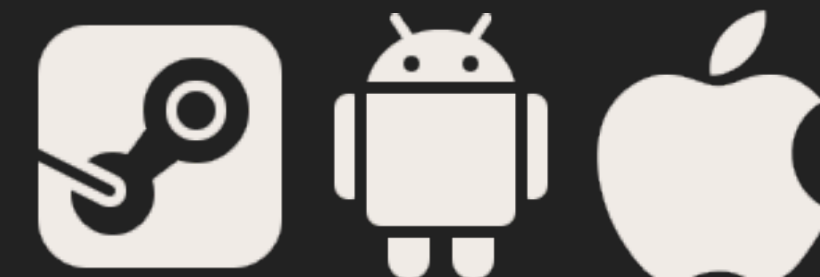

Board game, abstract strategy, tile placing

Older Robed Man- The figure closest to the machine stands out among them. A thick gray beard frames a face otherwise hidden beneath a metallic mask.

His faded robes are embroidered with a runic language unlike anything you have ever seen, and he wears a strange black headdress with two protrusions that jut out like the wings of some malevolent creature.
